
SAFETY DATA SHEET - SDS

Date: 01/01/2016

No: 01

1. IDENTIFICATION OF THE SUBSTANCE/PREPERATION AND OF THE COMPANY/UNDERTAKING

Product Name: Urea solution 32,5% in water - AdBlue®

Company: CrossChem Australia Pty Ltd

Address: 10-16 Seville Street Fairfield NSW 2165

Tel: 1300 106 220

Emergency telephone number:000

2. COMPOSITION/INFORMATION ON INGREDIENS

Nature of the product Liquid

Substance name	Value(s)	CAS No / EC No / EC Index	Symbol(s)	R-Phrase(s)
Urea	32.5 %	57-13-6 / 200-315-5 / ----		
Water	67.5 %	7732-18-5 / 231-791-2 / ----	-	-

Not a hazardous substance or preparation according to

Classification

EC-directives 67/548/EEC or 99/45/EC.

3. HAZARDS IDENTIFICATION

Most important hazards	The product contains no substances classified as hazardous to health in concentrations which should be taken into account according to EC directive.
Inhalation	Inhalation of aerosol may cause irritation to the upper respiratory tract.
Skin contact	Prolonged skin contact may cause skin irritation.
Eye contact	Repeated or prolonged exposure may cause irritation of eyes and skin.
Ingestion	Gastrointestinal discomfort.
Environmental properties	No information available.

4. FIRST AID MEASURES

First aid measures	Oxygen or artificial respiration if needed. Keep at rest. Move to fresh air.
Inhalation	Obtain medical attention.
Skin contact	Take off contaminated clothing and shoes immediately. Wash off with soap and water. If symptoms persist, call a physician.
Eye contact	Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
Ingestion	If possible drink milk afterwards. Clean mouth with water and drink afterwards plenty of water. Do not induce vomiting. Obtain medical attention.
Protection of first-aiders	No special precautions required.
Notes to physician	Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Protection of first-aiders	No special precautions required.
Suitable extinguishing media	Not flammable.
Media not to be used	In case of fire use extinguishing media appropriate to materials on fire.
Hazardous thermal decomposition and combustion products	Does not create explosive mixtures with air. Substance is not flammable at normal conditions. Thermal decomposition products: at 133-160°C: biuret, ammonia; at 160-190°C: cyanuric acid, ammonia, carbon dioxide.
Special firefighting procedures	Avoid vapors inhalation. During fire extinguishing ammonia can release.
Additional information	Prevent run of product into drains. If water containing dissolved product enters into drains inform appropriate services.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	Sweep-up to prevent slipping hazard. Avoid inhalation of gases. Avoid contact with skin and eyes. Wear personal protective equipment.
Environmental precautions	Prevent product from entering drains.
Methods for cleaning	Clean contaminated surface thoroughly with clean water. Dam up.
Dispose	in accordance with local regulations.

7. HANDLING AND STORAGE

Storage	Handle in accordance with good industrial hygiene and safety practice. Incompatible with strong acids and oxidizing agents. Keep in properly labelled containers.
---------	---

Handling	Keep tightly closed in a dry, cool and well-ventilated place. Impervious gloves. Wear personal protective equipment. When using, do not eat, drink or smoke. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and immediately after handling the product.
Specific use(s)	Ensure adequate ventilation. With equipment according to ISO 22241-2.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Personal protective equipment	Use in an area equipped with a safety shower.	
Respiratory protection	In case of insufficient ventilation wear suitable respirator equipment.	
Hand protection	Use gloves.	
Skin and body protection	Protective suit not required.	
Eye protection	Face-shield, safety glasses (EN166). Hygiene measures	Handle in accordance with good industrial hygiene and safety practice.

9. TOXICOLOGICAL INFORMATION

Inhalation	May cause irritation of respiratory tract.
Skin contact	Irritating to skin.
Eye contact	Irritating to eyes.
Ingestion	Ingestion may cause irritation to mucous membranes.
Chronic toxicity	No information available.
LD50/oral/rat	>2000 mg/kg

10. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Liquid
Colour	Clear
Odour	None or small smell of ammonia
pH	9,8 - 10,0
Boiling point/range	No data available
Freezing point	-11°C
Flash point	No data available
Evaporation rate	No data available
Vapour density	No data available
Solubility in other solvents	No data available
Auto ignition temperature	No data available
Explosive properties	Protect from contamination.: Strong acids , nitrates

Oxidizing properties	Exothermic reaction with strong acids - Vapors may form explosive mixture with air
Vapour pressure	No data available
Water solubility	ca. 48 mm Hg @ 40 °C
Viscosity	Soluble
Partition coefficient	No data available
Density	No data available
	1087,0 – 1093,0 kg/m ³ @ 20°C

11. STABILITY AND REACTIVITY

Stability	Stable at normal conditions. Ammonia gas may be liberated at high temperatures.
Hazardous decomposition products	Possible decomposition products are: Carbon oxides, Nitrogen oxides (NO _x).
Materials to avoid	Burning produces obnoxious and toxic fumes. Reacts strongly with nitrites. Calcium hypochlorite nitrates. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions. Sodium hypochlorite
Conditions to avoid	Keep at temperatures above 50 °C.

12. ECOLOGICAL INFORMATION

Bioaccumulation	Low potential
Eco toxicity effects	Acute fish toxicity = LC 50 : >10000 mg/l 48 h (gold fish)
Mobility	Soluble
Persistence and degradability	Readily biodegradable
Contaminated packaging	Empty containers should be transported/delivered using a registered waste carrier to local recyclers for disposal
Waste from residues	Can be land filled, when in compliance with the Environmental Protection (Duty of Care) Regulations 1991. Dispose of in accordance with local regulations

13. TRANSPORT INFORMATION

ADR/RID Not classified as dangerous in the meaning of transport regulations.

14. REGULATORY INFORMATION

Labelling	76/116/EC
Symbol(s)	The product is non-dangerous in accordance with Directive 1999/45/EC.
R-phrase(s)	-
S-phrase(s)	S24 - Avoid contact with the skin.

The contents and format of this MSDS are in accordance with EEC Commission Directive 2001/58/EC, 1999/45/EC, 1967/548/EC.

DISCLAIMER OF LIABILITY The information in this MSDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable.
